PROYECTO T-02070

PAGINA / REVISIÓN 3 DE 3 / 04

NOTAS GENERALES

- Nota 1.** Todas las bornas de pantallas individuales, en las cajas de señales digitales, serán puenteadas exceptuando las bornas de los multicables de 2 pares de los finales de carrera, que tienen pantalla global.
- Nota 2.** Cuando se defina el tipo de termopar, se debe considerar, en el caso que la union esté aislada dentro de la camisa, que la pantalla será llevada a tierra en el marshalling. Si la unión está hecha directamente en la camisa la puesta a tierra será en campo en el propio instrumento.
- Nota 3.** Las cajas de equipos paquetes seran numeradas a partir del numero 700 al 799, Las cajas de cabinas de analizadores seran numeradas a partir de numero 600 al 699.
