

ENERGY MANAGEMENT POLICY - PETROPERU S.A.

Petróleos del Perú – PETROPERÚ S.A. is a company that provides quality energy in a competitive, reliable and sustainable manner, contributing to the development and energy security of the country.

PETROPERÚ's vision is to be the leading energy company creating value for the country, recognized for its good corporate governance, quality, efficiency and socio-environmental responsibility, committed to the global energy transition.

Our policy is based on the following commitments:

1. Develop our activities using available energy resources efficiently and adopting best practices in energy management, with the aim of ensuring the implementation and compliance of the Annual Energy Management Plan, as well as the energy objectives and goals, within a framework of continuous improvement.
2. Comply with current applicable legislation and other voluntarily subscribed requirements, related to energy use, consumption and efficiency, promoting migration towards cleaner and more sustainable sources, technologies and products.
3. Direct efforts to achieve sustainability and energy independence, with a focus on the incorporation of renewable energies in our operations within a framework of fair, internal and external energy transition, in order to establish relationships of mutual trust and cooperation with companies that supply or consume external or own energy, as well as with government institutions that supervise the activity.
4. Promote the active participation of all workers, suppliers and contractors, aimed at meeting the established objectives and goals, fostering a culture of energy efficiency throughout the organization.
5. Provide the entire organization with the necessary and required resources, as well as the availability of information, to achieve performance in accordance with this policy, and work on finding innovative technological solutions that promote energy efficiency and the transition towards less carbon-intensive and more sustainable energy sources.
6. Disseminate this Policy to all staff, clients, collaborators, authorities, community and other interest groups.

This Policy reflects our commitment to sustainable energy management, aligning our actions with our mission and vision, and actively contributing to the transition towards a cleaner and more sustainable energy future.
